

## THE IFP PLEDGE TO FIGHT AGAINST HIV/AIDS

The IFP has always been a champion of people's rights and liberty. It has never been forced by court action to carry out its responsibility as caretaker for the most vulnerable sectors of our society. Our track record of ensuring the best treatment and prevention of the spread of the HI virus speaks for itself.

The IFP knows that HIV causes AIDS. We have personal experience of the human tragedy and devastation caused by AIDS – we are ALL affected.

An IFP government pledges to:

- Declare WAR on HIV/AIDS;
- Treat HIV/AIDS as a government priority;
- Provide antiretrovirals NOW;
- Establish Care Centres offering counselling, assistance to access grants, legal support and dietary advice;
- Establish support systems for vulnerable children; and
- Promote an *ubuntu/botho* inspired loving and accepting environment in order to destigmatise the disease.

**VOTE IFP**
